INTRODUCTION

This directory of European organisations supporting indigenous peoples is part of an attempt to give the process of cooperation between these groups a more structural character.

Earlier this year, NCIV organised the Conference on Cooperation of European Support Groups in the UN Decade of Indigenous Peoples. The networks that were established there were thematic and of limited size. The objective of this directory is to broaden the possibilities for cooperation, by making the different groups more familiar with each other's activities. Regional as well as thematic specialists should be able to get to know each other this way.

It is our aim that an update of this directory will be issued each year. Please inform us about mistakes or omissions in this first issue. We hope that indigenous organisations as well as support groups will benefit from this publication.

Dirk Steen/Netherlands Centre for Indigenous Peoples

The Netherlands Centre for Indigenous Peoples would like to thank the European Commission and the Haella Stichting for making this publication possible.

In compiling this manual we made use of the handbook by Heike Blum et. al., eds.: 'Indigenous peoples: Handbook of Support Organizations in Germany'. We would like to thank the editors for giving us permission to do so.
